MS Access Lab 6

Quiz 5&6 (You can form teams of two for this quiz):

In your library.mdb:

1. Create a report that makes it easy to display the list of all currently available (not loaned out) books.
2. Make a query that shows a list of books from 1 category of your choice.
3. Create a switchboard that has two buttons for your form and report you’ve created in the previous quiz

In the Northwind.mdb:

4. Make a query that shows each shipper’s number of shipments in 1997.
5. Make a query that shows a list of customers who bought Manjimup Dried Apples

Further Instructions:

Please provide a screenshot for your answer to each question.
